

BEATSON COUNTERS

We encourage using your creativity to make your own counters for the game. We have also supplied our Beatson Heart below for you to colour in different colours and use as your counter!

Please be careful using scissors or ask an adult for help.

HOW TO PLAY

THE BIG BEATSON ADVENTURE

Roll the dice and move your counter. If you land on a 'question time' square, simply pick one from the pile. If you get the answer correct, please move your counter forward one space!

If you get the question wrong...please move your counter back one space and look at the 1000 club materials to help you know the correct answer for next time.

If you need extra support or more questions for the game, please head to our website or contact fundraising@beatsoncancercharity.org

BEATSON DICE

To make your dice, carefully cut around the outside edge then fold along the dotted lines, insert the flaps, and use glue or tape to secure them in place!

PS. Our logo stands for one!

You will need scissors and glue or cellotape.
